

YBERIA
INKJET SOLUTIONS

EPSON PRINTING TECHNOLOGY

The Yberia Single Pass printer with Epson i3200 A1 printheads is optimized for:
Personalized book spine printing for both small and large production runs.
Graphic design printing for spines of notebooks, planners, and albums.
Editorial production with high-quality, professional finishes.

PRINT HEAD CONFIGURATION

Each printhead offers a printing width ranging from 30 mm to 120 mm with a printhead number from 1 to 4, depending on the configuration. High-precision inkjet technology ensures sharp text and detailed graphics. Resolutions of up to 1440 dpi, ideal for intricate and high-quality designs.

YBERIA SERIE SP BOOK EDGE

The Yberia Single Pass printer, designed for efficient and precise book spine printing, is equipped with Epson i3200 A1 printheads. These printheads ensure high-quality and versatile performance, making it ideal for printing companies, publishers, and businesses aiming to professionally customize products such as books, notebooks, and albums.

IMPROVED SUCTION

The YBERIA SP Series features a high-powered suction turbine, capable of printing virtually any container with ease and strength.
